RUST-BLOCK™ is a revolutionary water based spray that inhibits rust on all ferrous metals. However, it is harmless to skin or the environment. Use it to protect your tools, auto parts, hardware, gardening gear and more. Also, it is ideal for industrial use. Safely and economically support maintenance, storage or shipping operations. RUST-BLOCK™ is the environmentally friendly product that is safe for all projects. It is non-corrosive, non-flammable, and biodegradable. Most users simply rinse the invisible coating down the drain when they are ready to proceed with their project.

- Protects bare metal from rust for up to 1 year
- Safe on all types of metal
- Economical
- Easy to use

THERMOCURE™ uses the latest technology in rust and corrosion removal to completely revitalize automotive cooling systems. THERMOCURE™ removes rust scale and deposits from radiators, water pumps, water jackets, engine blocks, and heads. Rust and corrosion act as an insulator and cause vehicles to overheat. This product restores the engine's ability to transfer heat to the coolant allowing engines to run cooler and last longer.

- Removes the rust that cause engines to overheat
- Non-flammable
- Non-corrosive
- Non-toxic

Part #TC001

Evapo-Rust® Gel combines the rust removing power of Evapo-Rust® with the ability to cling to vertical, rusted surfaces. Simply brush on and allow an hour to work, then rinse away the rust with water. Also, it is safer than other gelled rust removers. Evapo-Rust® Gel does not harm copper, brass, or aluminium.

Part #ER088

- Biodegradable
- Brush-on
- Clings to vertical surfaces

Safe-Erase™ and SAFR™ are the fast acting paint removers that will remove multiple layers of paint and varnish with one application. Simply brush on and allow it to penetrate the paint. Safe-Erase™ is designed for the at home user. SAFR™ is designed for the industrial user.

New

- Contains no methylene chloride
- Non-flammable
